

The NanaAwards is an annual competition recognizing projects from across our community of contractors, architects, builders, interior designers, and homeowners.

# TOP 10 SUBMISSION TIPS

How to Make Your Entry Stand Out from the Crowd

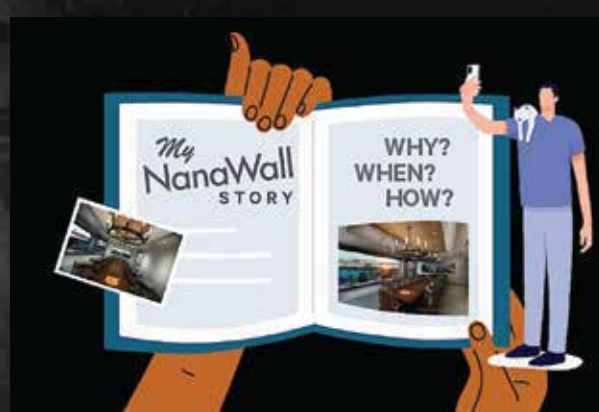

## HOW TO PREPARE

- 1** No need for professional photography if you don't already have it! You are more than welcome to capture photos and videos of your project with a mobile phone.
- 2** If using a mobile phone, try adjusting your camera settings and use wide mode at 0.5x to capture wider shots and capture the complete NanaWall opening.

## WHAT TO CAPTURE

- 3** We'd love to see photos and videos of your NanaWall installation in different positions - open, halfway open, and closed, from the outside and the inside. If you have a swing door panel, capture someone walking through it.
- 4** Take action shots of family, friends, colleagues, and/or customers in your space, interacting with your NanaWall installation. How do you use it? When do you use it? Show us what you love about the functionality!

## CRAFTING YOUR STORY

- 5** Give us a behind-the-scenes look at the interesting, incredible, or simply unusual story behind your NanaWall installation.
- 6** Remember that winners will be decided by public vote, and everyone loves a good story, so the more details you share, the better!
- 7** If your project was a remodel, please upload any "before" photos you have of the space prior to remodeling.

## HAVE FUN WITH YOUR SUBMISSION

- 8** Film someone saying the NanaWall tagline "Boundaries Unbound" in a video clip to earn bonus points!
- 9** Get creative and capture a fun selfie with your NanaWall installation. Don't worry about being overly formal with your content!
- 10** Have more than one project to share? Create a new submission for each project and double your chance of winning!
